

Smooth bags type 150

MIN: -25°C

MAX: 70°C-2h/100°C-15'

Smooth Storage vacuum are made in PA/PE 25/115 ideal for perfectly vacuum-packed storage of solid, sharp products, such as bone-in meats.

Thanks to the considerable thickness of the bag, the quality of the material it is made of and its ultra-strength, each smooth bag type 150 allows you to pack perfectly any food even the most angular, without breaking.

The absolute quality of the polymers that make up each bag and the production technique Orved bags, allow the smooth bags type 150 to preserve the freshness and quality of each food for a long time.

Smooth bags type 150 are perfect for use with professional chamber machines and, in the domestic sector, with external vacuum machines.
